HOW TO MEASURE FOR OUR CHARTS

- CHEST: This is the full circumference measurement of your chest, measuring over your bust.
- CHEST OPEN: This is the full circumference measurement of the chest, when all four bust gussets are opened.
- WAIST: This is the full circumference measurement of the waist.
- WAIST CINCHED: This is the full circumference measurement of the waist when the internal adjustments are fully cinched.
- HIP: Measure the full circumference of your hip/seat area at the widest part.
- HIP OPEN: Measure the full circumference of your hip/seat area at the widest part, with the hip gussets fully opened.
- LENGTH: The length of the measurement from the base of the neck, taken to the front hem line.
- ARM: Measure the full length of your arm, starting at the base of your neck, down to your wrist.
